

4X4 EQUALS EVEN MORE COMMERCIAL-DUTY CAPABILITY

To help your business run at its best, you need a truck that is built to take on the most demanding jobs. Introducing the International® TerraStar™ 4x4, our newest configuration of our class 4/5 work truck built with commercial-grade components. It's powered by MaxxForce® 7, the 300 hp engine built for medium duty. It also features MaxxForce Advanced EGR, the only no-hassle, no liquid urea 2010 emissions solution.

Its fully-integrated Diamond Logic® electrical system gives you more uptime and better functionality. Add a commercial-duty Allison 1000 Series transmission and a commercial-style, tilt-away hood, and you've got a truck you can depend on, and then some.

A NISSAN COMPANY

TERRAStar
POWERED BY MAXXFORCE
